APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

No perforations shall be put in the production casing from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.50 cubic feet per second, but not to exceed 20 acre-feet annually, but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before May 16, 1987

Proof of completion of work shall be filed before June 16, 1987

Application of water to beneficial use shall be made on or before May 16, 1989

Proof of the application of water to beneficial use shall be filed on or before June 16, 1989

Map in support of proof of beneficial use shall be filed on or before June 16, 1989

Completion of work filed DEC 12 1986

Proof of beneficial use filed NOV 17 1992

Cultural map filed NOV 17 1992

Certificate No. 14906 Issued APR 20 1998 AD 1986

IN TESTIMONY WHEREOF, I, PETER G. MORROS,  
 State Engineer of Nevada, have hereunto set my hand and the seal of  
 my office, this 16th day of May

State Engineer
